

FastVoice Platform Guide

2026-08-19 | <https://voice.fastsmc.com>

FastVoice is a self-hosted voice-agent platform built with Python, FastHTML, HTMX, and browser-native JavaScript. It combines a visual workflow editor, live browser testing, outbound campaigns, telephony, knowledge retrieval, tools, recordings, model configuration, REST APIs, MCP, and a typed Python SDK in one deployable

Build voice agents you can see, test, and own.
